

Fancy A Weekend At Bernito's?

Hit the beaches or counter-attack from the hills with Robert Avery's latest pdf scenario booklet for "I Ain't Been Shot, Mum!"

An extensive history of the first two days of Operation Husky, the Allied invasion of Sicily, covering the 10th and 11th July 1943, and accompanied by seventeen unique scenarios for "I Ain't Been Shot, Mum!" including attacks, counter-attacks, encounter battles, desperate defences, fighting retreats, and ambushes!

From the initial and largely disastrous airborne assault through to the immediate aftermath of the main landings, you'll encounter British and US Paratroopers; regular British and American infantry and armour; Italians of all shapes and sizes; and maybe the odd German or two as well!

Each scenario contains a background history, maps, a full game briefing, and a full briefing for each player. Simply print out the pages you need, unpack your figures, set up the table, and away you go!

Available from www.toofatlardies.co.uk along with Robert's previous booklets The Defence of Calais; Vyazma or Bust; Fall of the Lion Gate; Bloody Burma; and Anzio – Wildcat to Whale.
